Performance Sportswear — Built for the Planet

AGILE TEAM CHARTER

Course: PRP372S
Lecturer: Prima Inderlal
Date: 1 April 2026
Team Leader: Abdullahi Farah (230971091)

1 Team Purpose & Vision

Team Mission	The aim of this project was to build South Africa's leading sustainable performance sportswear brand, offering fitness-active South Africans quality activewear that is eco-responsible and genuinely affordable.
Vision Statement	A South Africa where all sportsmen can train freely without compromising their values or breaking their budget in gear that performs, lasts and leaves the least possible impact.
Product / Service	High-performance activewear made from recycled and eco-certified materials (leggings, sports bras, tees, shorts, outerwear) R250–R650
Success Definition	The relationship between customer demands and the product offering is very clear.

3 Team Values & Agile Principles

Core Values

- Respect — We listen actively and treat every team member's input with equal value.
- Transparency — We share progress, blockers, and feedback openly and honestly.
- Accountability — We own our tasks and follow through on commitments.
- Trust — We trust each other to deliver and to raise issues early.
- Learning Mindset — We treat every challenge as an opportunity to improve.

Agile Principles We Follow

- Individuals and interactions over processes and tools.
- Working deliverables over exhaustive documentation.
- Collaboration and continuous feedback over rigid planning.
- Responding to change over following a fixed plan.
- Deliver value in short, focused iterations and review and improve regularly.

4 Communication Plan

Primary Channels	WhatsApp (day-to-day updates), Google Meet (team meetings), Google Drive (shared documents)
Meeting Frequency	Weekly check-in every Monday; ad-hoc sessions as needed ahead of milestones
Response Time	Non-urgent messages: within 24 hours. Urgent issues: within 3 hours during core hours (08:00–20:00).
Remote Norms	Cameras on for scheduled meetings where possible. Notify the group in advance if unavailable.
Decision Escalation	Unresolved disagreements raised to the Group Leader (Abdullahi Farah) for a final call after team input.

5 Goals & Milestones (SMART)

All goals follow the SMART framework: Specific, Measurable, Achievable, Relevant, and Time-bound.

6 Ways of Working

Agile Framework

- We operate using a Kanban-inspired approach, tracking tasks on a shared board (Trello).
- Work is divided into clearly defined tasks assigned to individuals with agreed deadlines.
- Progress is reviewed at each weekly check-in and tasks are updated accordingly.

Working Agreements

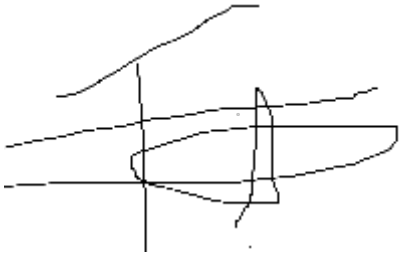

- We show up prepared and on time for all scheduled meetings.
- We respect agreed timeboxes and communicate if we will miss a deadline.
- We give constructive, specific feedback not vague criticism.
- We raise blockers early so the team can help resolve them.
- We commit to continually improving and reflecting after each major submission.

Decision-Making

- Day-to-day decisions: team consensus via WhatsApp vote.
- Significant decisions: discussed in a meeting and decided by majority.
- Deadlocked decisions: Group Leader (Abdullahi Farah) makes the final call after hearing all views.

7 Team Commitment

By working on this team, we commit to the values, communication norms, and working agreements outlined in this charter. We agree to hold each other accountable and to represent the ActiveEdge project with professionalism and integrity.
